NARCISSI

Narcissi is the family of Spring Bulbs which embrace a number of classes, such as Jonquils, Daffodils and Narcissus, or botanically speaking, Trumpets, Poetaz, Poeticus, Incomparabilis, etc. Their culture is easy and they will last indefinitely. They should be planted from 6 to 8 inches deep and a yearly dressing of bonemeal and rotted manure keeps them blooming well.

- ACTAEA (Poeticus Narcissi).** (Poet's Narcissus). Broad margined red eye set in snowy white perianth. Very vigorous grower.
15c each \$1.50 per doz. \$11.00 per 100

15c each \$1.50 per doz. \$11.00 per 100

Peonies

Peonies are one of the most hardy and easily grown of all our flowers. Plant from September until the ground freezes. The root should be planted in well spaded soil, the topmost eye not more than 2 inches under the ground, and a small amount of bonemeal used when the root is set.

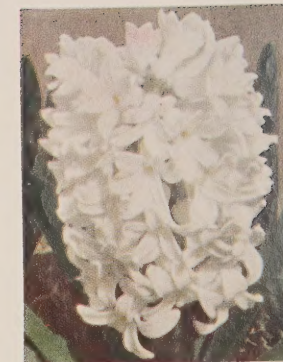

Imported Flower Bulbs in a Wide Selection of Choice Colors

The following list contains all of the fall bulbs, among which you will find the different varieties of Tulips, Daffodils, Hyacinths, Crocus, Hardy Lilies and many miscellaneous bulbs. Also included are the Poppies and Peonies recommended for fall planting.

Our bulbs are grown in Holland and shipped to us directly from our grower. We offer only top size bulbs and varieties which have proven as the best in their class for color, form and hardiness.

TULIP PLANTING

In bordering a bed it is recommended that they be staggered 6 to 8 inches apart.

To enhance a flower border, groups of 6 to 12 tulips of one variety are very effective.

A large bed is best planted in triangular wedges of 25 to 100 bulbs each, arranged so that they make a continuous pattern.

Plant bulbs 5 to 6 inches deep and if soil is heavy, the addition of some sand and bonemeal will help the growth and bloom ability of the bulbs.

Evergreens

We have growing at our Nursery at 96th and Blue River Drive a balanced stock of approximately fifteen thousand Evergreens. The upright trees range from two to eight feet in height and the spreading types from eighteen inches to five feet. These trees are the best varieties for this climate and are ideal for foundation and group plantings.

Upon request we will be glad to come to your home and recommend what varieties are best suited to your particular situation. Our service also includes planting.

Our Office, Greenhouses and Sales Yard are located at 93rd and Holmes. You are invited to visit us at any time of the year.
